WILL ATTEMPT TO BAN **ELECTRIC CHAIR'S USE**

Humanitarian Cult Starts Fight on Death Penalty.

Special to The Washington Herald.

New York, Sept. 18.—Removal of the death chair from Sing Sing prison during the next session of the legislature is the task set for itself by the anti-capital punishment branch of the Humanitarian Cuit, with Misha Appelbaum as leader. Hundreds of persons have recently signified their intention of joining this organization, and among the prominent men who have agreed to serve on the committee are the Rev. Stephen S. Wise, Spencer Miller, ir., deputy warden of Sing Sing; Huntington W. Merchant, Warden Osborne's attorney, udge Nell, of Chicago; Henry Leipziger, of the Board of Education; Dr. Frank Grane, of the Globe; the Rev. John Herman Randall, of the Mount Morris Baptist Church; James W. Osborne, Katherine B. Devis, commissioner paroles; Frederick C. Howe, commissioner of immigration; Lee L. Redding, Moses Grossman, Stuart Kohn,

"SMASH THE MASHER." JUDGE TELLS GIRLS

Special to The Washington Herald.

Charleston, W. Va., Sept. 16.—Flirting has gone out of fashion here. Flirts are having a strenuous time following the pronunciamento issued by Judge L. D. of the height Vickers, who issued a public announcement following numerous complaints to
all girls to "smash the masher."

Charleston has been noted for its mashers, but the girls of the city say the season is now closed following the advice of
Index Vickers.

son is now closed following the number of Judge Vickers. As a result a number of first have been "smashed," and in all

LIQUOR MAN SIGNS

White Plains, N. Y., Sept. 16.—County Judge Young has decided an unusual question, regarding the right of H. Smith to engage in the liquor business, in an action brought by the State excise de-

in Bedford village. The state sought to revoke the license, on the ground that two-thirds of the owners of dwellings within 300 feet had not given consent, claring Smith signed his own petition. Smith proved he owns more than two-thirds of the dwellings within the pre-scribed district. Judge Young decided

"My Scientific Car"

A Statement by John W. Bate, the Efficiency Expert The First He Has Ever Signed

detail, typifies my ideals of

I have never said that before.

Yet I have devoted 13 years to this car. I have made some 700 improvements. And this is my 17th model. has had beligged of the

We have all kept silent on my objects until my work was done.

Efficiency is This:

Efficiency means doing things in the best way possible.

In the factory it means economy. It means minute-saving at every point: It means right arrange ment. It means trained men. It means machines to perform each operation in the quickest way.

We have that now The Mitchell plant is the model of this industry.

We have worked out here a factory saving of at least 50 per cent. A car like the Mitchell, in most modern plants, would cost the maker at least one-fifth more than here.

A Lifetime Car the anti

I consider that efficiency also means a car built to last a lifetime. A car's life is affected by use and abuse. But seven cars of my building have already averaged 175,000 miles each. That's over 30 years

The fatest Mitchell, in every of ordinary service. One has durance and for economy already run 218,000 miles.

> That is due to my policy of giving every part at least 50 per and get lightness, I use much Chrome-Vanadium steel. I use more drop forgings, more steel stampings than any other maker, I believe. There are 440 such parts in the Mitchell. I use almost no castings.

Took 55,000 Hours

I have devoted to this Mitchell some 55,000 hours. For I work both night and day. I have worn out fifty cars in comparing one idea with another. Each part has been tested in every known way before I adopted a standard.

Now, by watching materials, by endless tests and inspections, we

keep every part to that standard. When I drive a car I want it built as I build it. I want it for safety's sake, for the sake of en-
